TREACHER & COMPANY, Ld.

REAL AMERICAN "SQUEEZER" PLAYING CARDS.

Best quality, of the strongest material, and being highly finished on both sides, they slip readily when handled.

An important feature is that by reference to the "INDICATORS" in the corners all chance of making a mistake in the hand is avoided, as such "Indicators" show the Suit and Size. This allows of the hand being compressed into a very small space, and hence the name "SQUEEZERS." The "Indicators" are in addition to the ordinary pips made to run both ways.

May be drunk by persons of every age, and at all times.

Dr. G. S. Ranking, Surgeon, Indian Medical Department, writes of it thus :—"I am of opinion that in 'Zoedone' is to be found a complete solution of the problem which has long exercised the minds of the medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and, while being palatable, be also non-alcoholic. It is my firm conviction that if 'Zoedone' be introduced into India it will meet all the requirements of those who wish to restore their nervous systems without impairing their livers."

From Dr. Lucas, Bombay Medical Department, Author of "The Elements of Indian Hygiene," &c. : "I am of opinion that the invaluable acrated beverage 'Zoedone' deserves the highest attention at the hands of the Indian public ; it is not only health-giving drink, but essentially, containing as it does the quadruple phosphates of iron, lime, potash, and soda, a health-restoring drink par excellence reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes, and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phthisis, &c., the cost at which it is sold should in itself commend 'Zoedone' to the people in India."

The Company's Agents for India, including Burmah and Ceylon, are as follows :—

Agents in Chief, Messrs. Willis Rodwell & Co., London.

BOMBAY	... ...	Messrs.	C. H. B. Forbes & Co.
CALCUTTA	... ...	„	Hinde, Allen & Co.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, AUGUST 31.

ANOTHER drop of ¼ in Consols, which are now down to 99⅛, accompanied by a decline in the New York exchange on England from $4-78½ to $4-77½ per £ is a very decided indication against easier money in London, and it would be no great surprise if the Bank rate were raised again to-morrow. There is, no doubt, a strong disposition to avoid putting up the rate if possible, as evidenced by the step adopted in refusing to sell Bar Gold, which is only an attempt to stop the withdrawal of Gold from the country without making a higher quotation for money; but the combination of adverse circumstances at the moment is very strong, and renders the balance of probabilities, we think, in favour of higher rates.

Indian securities, all things considered, show great steadiness. The 3½ per cent. Sterling Loan has recovered from 102½ to ⅞, and in Enfaced Rupee Paper the only change is a decline of ⅛ in Fours-and-a-half, which now stand at 89⅞, Fours remaining at 82¼. Reuter's weekly quotations for Indian Exchange Bank shares show a decline of 10s. per share in Chartered, Chartered Mercantile, and Hongkong, Orientals being unaltered.

In the London Produce markets Coffee and Cocoanut-oil are unaltered. Linseed is weaker, with a partial decline of 3d. per quarter. Rapeseed and Wheat are unchanged.

Piece-goods in Manchester continue quiet, and Cotton in Liverpool yesterday closed dull, the day's sales being only 6 bales, prices unchanged all round. In New York, however, the speculative advance continues, and it is evident a very strong corner must have been made for this month's deliveries, the price of ready Mid-Uplands being quoted ¼ cent. higher at 13¼ cents. November shipment comes 11·87 cents., an advance of 70 points; but the correctness of the quotation is questioned.

The receipts at the U. S. ports yesterday were 6,000 bales, making 22,000 bales for the four days, as against 21,000 for the same period last year.

EXCHANGE.—With no change in the quotation for Bar Silver in London, the market this morning opened quiet at yesterday's closing rates.

During the day no quotable change has taken place except that some of the banks have been buyers of 3 months' Credits at 1s. 8⅛d., but very little has been done, the tendency as usual being to await the result of the Council drawings to-morrow. Some people are of opinion that Government may affix too high a limit to admit of anything being taken up, and in that case we shall probably see rates somewhat stiffer again; but should 1s. 7 13-16d., or under, be accepted a decline is pretty certain to follow, although, possibly, not to any great extent. We quote at the close :—

Bank Bills on demand	.. ..	1s. 7 13-16d.	per rupee
Do. telegraphic	.. ..	1s. 7 25-32d.	,,
Do. 3 months' sight	.. ..	1s. 7 31-32d.	,,
Credits, 3 ,,	,, ..	1s. 8 ⅛ to 5-32d.	,,
Documents, 3 ,,	,, ..	1s. 8 5-32d.	,,
Francs 3 ,,	,, ..	12 1/2 to ⅝	,,

On Calcutta there is no change to notice.

GOVERNMENT PAPER has been quiet but steady to-day. In Fours a fair amount of business has been done at Rs. 99⅞ to par, and Fours-and-a-half are pretty firm at Rs. 109¼. So far the settlement is proceeding very fairly, and if to-morrow is well got over, greater confidence will be felt, although there is still the 15th in prospect.

SHARES.—The market has been quiet, with only a moderate business passing. Bank of Bombays are firmer at Rs. 722½, National Bank of India have receded to Rs. 107. Colaba Land shares are Rs. 5 higher at Rs. 945. Press Companies show no very special movement. Spinning and Weaving Mills are dull, and occasionally Rs. 5 to Rs. 10 lower.

COTTON shows no change worthy of notice. For export there is practically nothing doing, and prices are unaltered. Crop accounts on the whole are favourable, although, from Hingunghaut we hear that the rain has done serious damage.

In SEEDS Linseed is quiet at Rs. 6-10; but for Rapeseed the nominal quotation has advanced to Rs. 6-12 per cwt.

WHEAT is quieter, and for Soft White we now quote Rs. 34-8 to Rs. 35 per Candy, with fewer buyers.

FREIGHTS, though steady, are quiet. For early loading steamer tonnage continues in request, and we hear of a boat for September-October loading having been chartered to-day at 40s., U. K. or Continent. Later loading, however, is not enquired for unless at easier figures.

PIECE-GOODS are quiet, both ready and forward. It is reported, however, that the freight question has at last been settled by a new line of steamers guaranteeing 30s. per ton, the dealers undertaking to give 120,000 packages during the season at that rate, as security for which a lakh of rupees has been put down. The new line certainly deserves every encouragement, and nothing could well have been more suicidal than the attempt on the part of the conference to establish such an outrageous figure as 60s. outwards.

COALS are quiet on the spot, but steady for distant shipment. No new business, however, has transpired.

DOMESTIC OCCURRENCES.

THE CHARGE FOR NOTIFYING A DOMESTIC OCCURRENCE IS TWO RUPEES. THE ANNOUNCEMENT MUST BE AUTHENTICATED.]

BIRTHS.

BRANDER—August 19th, at Ranchee, the wife of Dr. E. S. Brander, Deputy Sanitary Commissioner, of a son.
NASH—August 8th, at Morapore, Sylhet, the wife of G. Nash, Esq., of a son.
WHITTY—August 26th, at Mozufferpore, Tirhoot, the wife of I. J. Whitty, C. E., of a daughter.

MARRIAGE.

PALMER—CLOGSTOUN—August 27th, at St. George's Cathedral, Madras, by the Ven'ble G. Warlow, assisted by Rev. A. A. Williams, Elwin Mitford Palmer, Financial Department, to Mary (Molly) Augusta Lynch, eldest daughter of the late Major Herbert Clogstoun, V. C., Hyderabad Contingent.

All MONEY ORDERS, CHEQUES, and other Remittances sent to this office should be made payable to the Proprietor of the *Bombay Gazette*.

The Bombay Gazette
THURSDAY, SEPTEMBER 1, 1881.

TWENTY years ago Mr. Jacomb proposed a rural savings bank, and suggested that the money could be advantageously employed in loans to ryots. The Government of that day thought well of the proposal, but declined to support it because doctrinaire economists at home might object to State interference with private enterprise. The Resolution is suggestive :—"Any loan bank which advances money to the ryot upon fair principles and at a reasonable rate of interest should be encouraged, as tending to keep down undue exactions, and as furnishing an industrious ryot with means to dig a well or otherwise improve his land. But it is not likely that the Home Government would countenance any scheme which, although deserving encouragement on its merits, ought, according to acknowledged principles, to be left entirely to private enterprise. It will be held in England that as every man is at liberty to lend money at whatever interest he can get for it, such unlimited competition must keep down the excessive gains of the Soukars and Marwaris." But many things have happened since then, ...Government now fully recognise the obliga... to initiate and assist novel undertakings ...ve good, or even plausible, grounds ...end them. What ground could be ... the relief of the ryot from indebted... the annihilation of the Soukar and ...action of credit, but by making credit ...nable, and cheap? Surely it would ...to pay 6 per cent. to the bank, ...l included, than 60 per cent. to the Marwari. The State builds and subsidises railways to take the peasant's produce to market, and digs canals to extend cultivation and save crops from destruction by drought; but what good are railways and canals, when there is no produce to carry and no crop to save? The first measure is to grow the crop; and the hungry peasant looks round in vain for the assistance he must have to grow it. So great has been the loss of cattle in the famine that it is rare to find fields which are ploughed more than once in three years : there are no cattle to plough; and in other years seed is sown broadcast, and left to chance. The acknowledged duty of Government being to assist and encourage, we hold that if some measure for the resuscitation of credit is not immediately taken in hand, Government will have failed in its primary duty, which at the moment is all-important. There is plenty of money to be lent, and an indefinite amount to be borrowed. The capital is ready, and the borrower is ready; what stands between is the great obstructionist, Government. The science of government meant one thing in the days of Lord Elphinstone and Barrow Ellis; it has another meaning in the day when so much energy is devoted to the preservation of game. Our administrators have mistaken their calling; they might have found suitable and congenial employment as gamekeepers, but they seem to be out of place in the government of men. We have reason to believe that a plan for agricultural banks would find favour at the India Office; but the initiation is left to the Government of Bombay, although we should not be surprised if they were to neglect this question from timidity or inability to take it up. Nothing can be said against the principle or the objects of the bank, and the only question is whether it should be a State bank or a private bank. Twenty years ago it would not have been possible to establish a private bank; and the Government shrank from undertaking a duty which would probably have been negatived by doctrinaires in England. These doctrinaire views have been modified; and there is no want of capital to start a private bank. The former difficulties have vanished, and it now requires only a moderate effort to start a bank which will have certain facilities assured to it for the recovery of its loans and the safety of its investments. Nothing is asked which would be unfair to the borrower, for the consideration of a cheap loan is the security upon which it is advanced. It is in the power of Government to give these facilities, and until they are given the flow of capital into agricultural channels must be impeded.

The idea of the Government Loan Acts proceeds upon the assumption that the individual who asks for a loan is so impressed with the profit likely to accrue from the proposed work, and has so carefully weighed the profit against the cost, that he will take considerable trouble to obtain a loan at a rate of interest which will permit of the profit, and will voluntarily invite an inquiry into his solvency and his securities. We believe this assumption to be erroneous. India is not a country of keen, calculating, energetic individuals; the people are mostly simple cultivators innocent of the safe science of arithmetic, who have vague ideas of interest and profit. The securities which they have are of the simplest kind; a pair of bullocks, a few brass pots, a silver bangle, is the sum of their earthly possessions. This very deficiency of security, perhaps, has generated a feeling of such utter gratitude for money lent for their wants in time of need, that the popular sentiment regards the non-payment of a just debt as a sin for which there is no expiation, and for which the debtor must suffer the torments of hell, until the son should relieve him by payment of the debt. With such a people, dominated by such sentiments, elaborate inquiries into solvency and securities appear superfluous. Their best security is this feeling of religious obligation to repay a debt; and the experience of the officers of the Deccan Agriculturists' Relief Act shows how strong this sentiment is, and with what horror the debtors repel the suggestion to declare themselves insolvent. Besides this, there is yet another sentiment which might be relied upon. The idea of the joint responsibility of the village community still survives, and although there may be no village communes in the Deccan, there is still a feeling of joint responsibility in village debts; and in the early days of British rule instances of Soukars producing bonds binding upon the village for advances made to it were not uncommon. Might not this feeling be revived in some measure? Might there not be a *panch* of village elders who could pledge the credit of the whole village as an association to repay a loan made to one of its members? Village life is so open and public, that there could be no loss; and the village has potent means to compel the debtor to repay his debt. Doubtless it is the fashion to decry village oppression; but there is far less of it than is usually believed, and such attempts to organise effective village associations would proceed upon lines more suited to the character of the people and the degree of civilisation which has been reached than attempts to deal individually with persons who as yet are not strong enough to stand alone. The Reiffeisen Associations in Germany are, in fact, village associations where each member is enabled to make a better bargain upon the security of all than he possibly could do upon his sole security. It might be possible to start such associations here, and their work could be quite independent of the banks; but time and knowledge are wanting, and even energy from a people who have been taught to rely upon Government for everything. In the meantime, and as a first step to the freedom of the ryot, a bank which would treat him fairly and reasonably, and would send its agents to teach him the advantages they offer, would have a better chance of success than any other. We cannot expect much from Members of Council and Revenue Commissioners; their intelligence is fossilised, and prevents them from understanding and assimilating new ideas, and their position makes them hostile to nobler manners and better laws. But in Governors who are accustomed to the free inquiry and restless curiosity of the House of Commons, and who have gathered harvests of experience in many fields, we may look for support and encouragement, and for a counterpoise to the dead weight of official obtuseness and sluggishness. We might be more careful of the ryot, and less careful of the reputation of ancient civilians; more anxious to do the right than to perpetuate a wrong; more earnest to restore confidence and credit by rational means than by prolonging a series of destructive measures which, as fast as one fails, is followed by a cry for another still more stringent, destructive, and useless. If we were to trace the sources of the evils to which we have drawn attention, we would find them to flow chiefly from dear money rising from poverty and insecurity, and the obvious plan of reform would be to offer cheap money upon adequate security. The duty of Government is to make the security adequate, and as a natural consequence the bank would offer cheap money upon sufficient security and upon a simple system of recovery.

VERY few ministers or generals in Russia have had so much experience as General Ignatieff, who, after having occupied the important posts of Ambassador at Constantinople and of Minister of Domains at St. Petersburg, is said to be destined to fill that of Foreign Minister. Ignatieff, at once soldier and diplomatist, was entrusted, almost at the beginning of his career, with the office of Military Secretary in the Russian embassy at London, where his chief performance was the preparation of a report on England's military position in India. It would be interesting to know whether Captain Ignatieff, to give him his title of those days, foresaw at the beginning of 1857 the Mutiny so soon afterwards to break out. The report had, in any case, the effect of engaging the attention and approbation of the Emperor Alexander II., who called the writer of it to Warsaw for a personal interview. Speculations concerning the views enunciated by Captain Ignatieff as to the stability of our Indian Empire would be vain, for Russian diplomacy keeps its secrets, and in no Russian blue-book will Captain Ignatieff's report be published. In dealing with England's position in India, he must naturally have introduced a Central Asian question; and it was probably in consequence of his report that in 1858, now promoted to the rank of colonel, he was sent on a special mission, which might equally have been called a military reconnaissance, to Khiva and Bokhara. In 1857 the Khans of Khiva and Bokhara had committed the singular folly of sending envoys to congratulate Alexander II. on his accession to the throne. The Russian Government did not, of course, fail to profit by the opportunity thus presented of renewing negotiations with neighbours hitherto so difficult of access, and so inhospitable when approached. Only sixteen years had passed since the accredited agents of our Government, Colonels Stoddard and Connolly, had been executed at Bokhara; and only seven years since Struve, the Russian diplomatic agent, had been imprisoned by the Bokharian Emir, and subjected to a variety of cruelties almost within sight of Russian troops. In addition to the dangers which Colonel

(FROM OUR OWN CORRESPONDENT.)

LONDON, AUGUST 31, 4-35 P.M.

At the weekly biddings for Council drafts upon India this afternoon tenders at 1s. 7¾d. received 23 per cent; above that in full.

It is now said that the amount of Council drafts to be offered next week is 35 lakhs.

Bar Silver closed at 51½d. per ounce; market firm.

Four per cent. Rupee paper, 82½; Four-and-a-half ditto, 89¾.

THE TWO RIVALS IN AFGHANISTAN.

(FROM THE PRESS COMMISSIONER.)

SIMLA, AUGUST 31.

A letter from Kandahar received at Chaman on the 30th says that Ayoub marches on or about the 1st September, taking with him seven weak regiments, and leaving two disarmed Kabuli regiments in Kandahar. All the chiefs of importance have been ordered to accompany him. The Sartip, Nur Muhammed, commands the tribal horse.

The merchants and cultivators are said to be discontented with Ayoub's Government.

News received from Kelat, dated the 23rd August, states that Aziz Khan, with his force, has halted at Shahjui for facility of supplies.

The Amir, with infantry, militia, cavalry, and guns was at Beh or Mushaki.

A letter received from the Amir's camp at Pul Maidan, dated the 15th August, shows he was pushing on by daily marches, and hoped to reach Ghuzni on the 19th.

The Amir's advance is stated to have caused a marked change in his favour through the country.

GOOD SERVICE pensions have been conferred on Brevet Colonel (Brigade-General) Harry North Dalrymple Prendergast, C. B., V. C., Royal (late Madras) Engineers, Brigadier-General Commanding Malabar and Canara; Lieutenant-Colonel (Brevet Colonel) Francis Dawson, C. B., Madras Staff Corps, Commandant of the 9th M. N. I.; and Lieutenant-Colonel (Brevet Colonel) Andrew Robert Clephane, Madras Staff Corps, Deputy Adjutant-General, Madras.

No information, the *Englishman* has good authority for saying, had been received by Government up to Friday last of Ayoub having attempted to open communications with Colonel St. John as alleged by a contemporary.

We learn from the *Indian Churchman* that the Bishop of Rangoon's medical advisers have ordered him to proceed to England with the least possible delay. It appears that injury to the spine has lately manifested itself—an injury of which at the time of his accident in the Karen Hills there was no indication. He leaves direct for England in the s. s. Amarapoora early in September.

A CALCUTTA paper says that Sir Ashley Eden did a graceful thing the other day. On hearing of the result of the Tikari case, the Lieutenant-Governor telegraphed as follows to Maharani Rajroop Koer, of Tikari :—" The Lieutenant-Governor congratulates you on the successful issue of the suit."

THE *Indian Daily News* is glad to learn that justice has been done in the case of the two native assistants of the Calcutta Post-office, who were suspended on account of that mysterious missing letter of the Viceroy. Mr. Hogg is said to have directed that the men should be reinstated at once, and that an explanation should be taken from higher officers, whose duty it was to carry out personally the orders of the Director-General with reference to the transmission of the letter.

WE have received the following official note :—In the Financial Statement for the current year, a hope was expressed that if an impulse could be given to railway construction by British enterprise, native capitalists will enter the field, either alone, or in conjunction with Englishmen. The correspondence on the subject of the Jessore and Khoolna railway is now published for general information. The importance of attracting local capital is fully recognised by the Government, and in any future undertakings, in the event of subscriptions being invited in England, endeavours will be made to stipulate that subscription lists shall simultaneously be opened in India.

THE vacation of the Allahabad High Court commences to-day, and four out of the five Judges take flight to Simla, viz., Sir Robert Stuart (Chief Justice) and the Hon'ble Justices Oldfield, Straight, and Tyrrell. The Hon'ble Maynard Brodhurst remains as Vacation Judge.

THE extension of service awarded to Sir Ashley Eden, the *Pioneer* explains, hardly deserves that name. "Properly his tenure of office would expire in June; that is, in a month at which it would not be convenient for any successor to take over office. So to suit all parties, as well as his own inclination, Sir Ashley Eden will be permitted to stay on till October."

THE *Englishman* understands that the Oriental Telephone Company, Ld., has at last arranged terms with the Government for the introduction of telephone exchanges into the three Presidencies, and now only awaits the issue of licences which are nearly ready.

AT the High Court yesterday, before the Hon'ble Mr. Justice Melvill and the Hon'ble Mr. Justice Kemball, Mr. Branson, on behalf of Jamshedjee Shapoorjee, late Chief Constable of Koth Taluka, Ahmedabad, who has been convicted of torturing one Bheema, and sentenced by the Session Judge of Ahmedabad to imprisonment for twelve months, in addition to a fine of Rs. 1,000, moved that the papers regarding the case be sent for. The learned counsel argued that there was a misappreciation of evidence, and pointed out a number of discrepancies in the deposition of the same and different witnesses. Mr. Melvill, in delivering the judgment of the court, said that the High Court had never, since its constitution in 1862, interfered with the findings of the district courts in civil or criminal cases on the ground that the evidence had been misappreciated. The court, therefore, would not depart from the practice, unless there were some extraordinary reasons for so doing. The discrepancies referred to by Mr. Branson, his lordship remarked, had not been lost sight of by the Assistant Judge, who had carefully weighed them. That the prisoner had not been permitted to cross-examine witnesses, and to appear by a pleader at the commencement of the trial, was, no doubt, a serious irregularity, and the High Court, if a timely motion had been made before it, would probably have quashed the commitment. But in the absence of any material error or defect that might be said to have occasioned a failure of justice in this case, the court refused the application.

THE Government cinchona factory in British Sikkim has recently succeeded, for the first time in this country, in manufacturing from the cinchona bark some sulphate of quinine, samples of which have been pronounced under analysis to be capable of bearing comparison with the pure sulphate of quinine of commerce. Preparations are being made for undertaking the manufacture on a larger scale, and Dr. King hopes in due time to be able to supply the entire quantity needed by the Government in India. Another new production of the same factory which claims to be an improvement on the cinchona febrifuge is a "crystalline febrifuge." The peculiarity of this preparation is that it consists of the mixed sulphates of the crystallisable alkaloids only; by rejecting those that are non-crystallisable, it is expected that the nausea which sometimes follows the taking of the febrifuge will also be eliminated.

A DESPATCH from the Marquis of Hartington is published in the *Gazette of India*, in which his Lordship remarks :—" I have received and considered in Council your (the Government of India's) Military letter No. 52, dated 7th February, 1881, forwarding reports describing the arrangements made for the withdrawal of the British troops from Kabul and the upper portion of the Khyber in August, 1880, and expressing the high estimation in which you hold the services of Lieutenant-General Sir D. M. Stewart, G.C.B., under whose orders the retirement took place. I have perused these papers with great interest, and have noticed with satisfaction the testimony borne to the excellent conduct of the troops during the evacuation. The arrangements for the passage of the different columns appear to have been carried out most successfully by all to whom the duties of directing the movement were entrusted, and I fully concur in the opinion you have expressed that the mode in which the retirement was effected reflects the highest credit on Lieutenant-General Sir Donald Stewart and the officers and men under him. A copy of this correspondence will be transmitted for the information of the Secretary of State for War and His Royal Highness the Field Marshal Commanding-in-Chief."

IT is notified in the *Gazette of India* that the Governor-General in Council is pleased to sanction the extension of the grant of the bronze decoration given in commemoration of the march from Kabul to Kandahar in August, 1880, to the troops which then composed the garrison of Kelat-i-Gnilzai and accompanied the force under the command of Lieutenant-General Sir F. S. Roberts, G.C.B., V.C., from that place to Kandahar. The *Pioneer* receives this announcement "with great pleasure," and recalls the fact that Kelat was held by Colonel Tanner of the 2nd Biluchis, and the garrison consisted of 47 of C-2 battery Royal Artillery with two guns, two companies of the 66th Foot (141 strong), the 2nd Biluchis (675 strong), a squadron of the 3rd Sind Horse (101 sabres), two medical officers, one Commissariat officer, and various details, amounting in all to about 1,000 men. During the trying period which followed the disaster at Maiwand the little force in Kelat was left entirely to its own resources, and Colonel Tanner never knew what a day might bring forth. Ayoub's emissaries were busy at work among the Tokhi Ghilzais, but the tribe shrewdly calculated the chances of Kandahar being relieved, and their leader Aslam Khan showed but little anxiety to attack the fort. Perhaps there were still living men who shared in the desperate assault of May 21, 1842, when Captain John Halkett Craigie, with 40 European gunners and some 600 sepoys, beat back 2,000 Ghilzais, who thrice placed their scaling ladders against the parapet. To quote Kaye :—"More than one hundred bodies were found at the foot of the works, and it was computed that the entire loss of the enemy did not fall short of 500 men; while not a man of the British garrison was killed." Colonel Tanner had to repel no attack of this kind, although his position was one involving constant anxiety and watchfulness. Immediately he received Captain Straton's heliographic message from the Tozi Hill on August 21, he set about collecting supplies for the Kabul-Kandahar force, and his Biluchis were soon out and among the villages buying corn and forage. The arrangements Colonel Tanner made were described by General Roberts as "admirable," and the supplies collected were invaluable at that juncture. From Kelat to Kandahar the troops which had formed the garrison of the fortress became part of the relieving army, and the 2nd Biluchis were afterwards incorporated with General Baker's brigade and shared in the stubborn fight round the Pir Paimal Ridge. No one, we think with our contemporary, will deny the claim of Colonel Tanner and his 1,000 men to the much-coveted star.

IT is stated that the Inspector-General of the Bengal Police has promised his Government (we suppose in view of the disturbances which occurred there in connection with the late census operations) that should circumstances arise rendering the despatch of extra police to the Sonthal Pergunnahs necessary, arrangements will be made under which 300 additional police would be posted within 48 hours at various stations on the rail encircling the Sonthal Pergunnahs, and a further body of 300 men in a couple of days more. During the next two days a third party numbering 100 men would be supplied; so that within six days 600 men would be placed at different stations along the line of rail, forming a cordon round the Pergunnahs, and ready to march at a moment's notice against insurgent Sonthalis. The Superintendents of Police of 25 districts have been directed to hold in readiness—for despatch to the possible scene of action—each a small party of from 20 to 25 men fully equipped. The stations at which they would assemble have been fixed by the Inspector-General; and the Deputy Commissioner of the Sonthal Pergunnahs has been authorized to summon them should necessity arise, and to direct them to move on any point in the interior at which their services might be required. The Sonthal Pergunnahs are conveniently situated between the Loop and Chord lines of the East Indian Railway.

A ROLL of Banknotes, value 500*l.*, was dropped into the offertory-bag at Chelmsford Church on Sunday, the 7th August, with a written request that the money should be devoted to the Chelmsford Infirmary. On the 4th of July last year a similar donation was made in the same way for the Chelmsford Dispensary. The donor's name is unknown.

A TELEGRAM from Vienna, dated August 11, says that the long-expected boat race between a Viennese and an American crew came off on the Danube that day. The contest, which was witnessed by a hundred thousand spectators, resulted in a complete victory for the Vienna men. The Americans were distanced early in the race, and resigned long before reaching the end of the course. That victory would declare for the Vienna team was hardly expected; but that the Americans should be so thoroughly defeated as they were was a complete surprise, and has accordingly caused the greater jubilation in Vienna.

THE composite sloop Satellite, which has been constructed at Sheerness Dockyard, was to be launched on August 13. She is built upon the same principle as the Comus, better known as the "C" class, with the exception that the Satellite is a purely composite sloop, and not a steel-plated vessel sheathed with wood. The frames are fastened to the keels in the ordinary way, with the same room and space as in the other part of the vessel, viz., 1ft. 8in., but they are built up in a different way to the other frames. The steel deck is 1¼ inch thick for three strakes on each side. The hatchways to the two engine and boiler rooms are fitted with shell-proof gratings and shutters, so that this most important part of the vessel will be protected from shot and shell. The coal bunkers are situate below the steel deck and between the engine and boiler rooms and the ship's side, and a recess is made between this and the upper deck the entire length of the rooms referred to, affording facilities for the vessel to carry a large quantity of reserve coal. In this respect the Satellite will have a great advantage over the other composite vessels, and will be able to make long voyages without calling at the different ports for coal. The powder magazines are situate in the fore part of the ship, the space between them being filled with the water tanks and chain lockers. She will carry eight guns.

DISTRIBUTION OF THE BOMBAY ARMY.

SEPTEMBER 1, 1881.

NOTE.—*Where Regiments are divided the Headquarters Station is mentioned first.*

The stations of corps in the Quetta Division are printed in italics.

ROYAL HORSE ARTILLERY.

"B" BRIGADE—
D Battery .. .. Mhow.
E Battery .. .. Kirkee.

ROYAL ARTILLERY.

1ST BRIGADE—
I Battery .. .. Ahmedabad and Baroda.
M Battery .. .. Kurrachee, under orders for Nusseerabad.
N Battery .. .. Hyderabad.
2ND BRIGADE—
A Battery .. .. Kirkee.
B Battery .. .. Belgaum, under orders for Neemuch.
C Battery .. .. Ahmednagar.
D Battery .. .. Kirkee.
E Battery .. .. Neemuch, under orders for Kurrachee.
F Battery .. .. Deesa.
G Battery .. .. Neemuch, under orders for Belgaum.
4TH BRIGADE—
A Battery .. .. *Quetta.*
Depôt .. .. Bombay.
8TH BRIGADE—
No. 5 Battery .. .. *Chaman, Khajack, Quetta.*
Depôt .. .. Poona.
No. 11 Battery .. .. Aden, under orders for England.
No. 13 Battery .. .. Aden, under orders for England
No. 16 Battery .. .. Aden, under orders for England.
No. 17 Battery .. .. Bombay, under orders for England.
9TH BRIGADE—
No. 10 Battery .. .. Bombay, under orders for Aden.
No. 14 Battery .. .. Bombay; under orders for Aden.
No. 15 Battery .. .. *Quetta.*
Depôt .. .. Kurrachee.
11TH BRIGADE—
No. 5 Battery .. .. Mhow.

14th Regiment .. .. Aden, Perim, under orders for Poona.
15th Regiment .. .. *Thull Chotiali.*
16th Regiment .. .. Ahmedabad.
17th Regiment .. .. Poona.
18th Regiment .. .. Satara, Bombay, Tanna.
19th Regiment .. .. Malegaon, Aurungabad, Agra, Indore.
20th Regiment .. .. Baroda, under orders for Belgaum.
21st Regt. (Marine Batt.) .. Bombay, Persian Gulf.
22nd Regiment .. .. Belgaum, Kaladgi, under orders for Aden.
23rd Light Infantry .. .. Ahmedabad.
24th Regiment .. .. *Hurnai, Sharigh, Spintangi, Saggan Valley.*
Depôt .. .. Mhow.
25th Light Infantry .. .. Bombay, under orders for Bhuj.
26th Regiment .. .. Ahmedabad, Sadra.
27th L. I. (1st Beluchi). .. Hyderabad.
28th Regiment .. .. Dharwar.
29th Regt (2nd Beluchis) .. Kurrachee.
30th Regt (3rd Beluchis) .. Jacobabad, Sukkur.

BOMBAY.

TO-DAY.

Temperance League Meeting, Y. M. C. A. Hall, 8 p.m.

VESSELS ARRIVED.—The following vessels arrived on the 30th :—Clan Maclean (s), from Liverpool. Yesterday :—Lady Octovia, London; Shelley (s), Alexandria.

VESSELS SAILED.—The following vessels sailed yesterday :—Menzaleh (s), to Dunkirk; Ethiopia (s), Coast and Calcutta; Calder (s), Persian Gulf.

PRINCE'S DOCK.—The s. s. Clan Maclean and Shelley entered, and the Loch Rannoch left the dock yesterday.

THE PORTUGUESE CONSULATE.—The Consul General for Portugal being seriously ill, Dr. L. P. do Rozario has accepted temporary charge of the Consulate.

A VAGRANT.—George Manson, a European, was yesterday declared a vagrant by Mr. W. Webb, and was ordered to be sent to the Government Workhouse.

POONA REGATTA.—The Poona Regatta will take place on the 7th, 8th, and 9th September, and not on the 8th, 9th, and 10th as previously advertised. All entries to be made on or before Friday, 2nd September, to the "Honorary Secretary, Poona Boat Club," or to "the Honorary Secretary, Poona Regatta."

BOMBAY TEMPERANCE LEAGUE.—A meeting in connection with the above will be held this evening, at 8 o'clock, in the Young Men's Christian Association Hall, opposite the Apollo bunder. There will be addresses and singing by a choir. Colonel Van Heythuysen will preside. The public generally, including ladies, are cordially invited.

CRIMINAL INTIMIDATION.—Benjamin Mathew, a Portuguese, was yesterday convicted by Mr. W. Webb of criminal intimidation, by attempting to use an open knife against the person of Pascol de Fernandes, woman. He was fined Rs. 20, and bound over in the sum of Rs. 200 to keep the peace for a period of six months towards the complainant.

THEFT.—Charles Vaz, a Portuguese lad, was yesterday convicted by Mr. P. Ryan, upon three separate charges, of theft of property, consisting of two silver watches, cash, and a pair of boots, of the collective value of Rs. 50, belonging to three different persons. He was sentenced to an accumulated term of eighteen months' rigorous imprisonment.

LAWN-TENNIS MATCHES AT POONA.—The following is the result of the lawn-tennis matches (English game) played on Tuesday morning for the Challenge Cup :—Poona G. K. (Merriman and Green) beat E. Y. Regt. (Inglefield and Kemball) 3 sets to 0. P. B. Club (Newnham and Rowlandson) beat Civil Service (Shewan and Vidal) 3 sets to 2. This was very well contested, and some fine play was exhibited by both pairs.

FRAUDULENT POSSESSION OF PROPERTY.—Mahadoo Rama, recently in the service of the G. I. P. Railway Company, was yesterday convicted by Mr. P. Ryan of having in his possession sundry articles of the G. I. P. Railway porters' kit of the collective value of Rs. 20, reasonably suspected to have been stolen or fraudulently obtained. He was fined Rs. 50, in default to suffer one month's rigorous imprisonment.

CHARGE OF KIDNAPPING.—William James Greengrass, an engine-driver in the service of the G. I. P. Railway Company, appeared yesterday before Mr. P. Ryan in answer to an immediate summons obtained by a Mrs. Lincoln on the day previous charging him with kidnapping complainant's daughter, a minor under the age of sixteen years, from her legal guardianship. Mr. Brown, of Messrs. Hore, Conroy, and Brown, appeared on behalf of the defendant. The case was postponed for hearing to the 7th instant.

LOSSES FROM RECENT SPECULATION IN GOVERNMENT PAPER.—The recent speculation in Government paper, says the *Satya Mittra*, "is believed to have been to the extent of more than eighty lakhs of rupees; and, besides causing other mischief, has had the effect of depressing the shares of spinning and weaving mills. The losses suffered by the speculators are said to amount to about four or five lakhs of rupees. Those banks which advanced moneys on the security of the paper are likely also to suffer to a certain extent."

ALLEGED THEFT AT KHETWADY.—Mr. Cumrooden Tyebjee, residing at Khetwady 8th Lane, reported to the police on Tuesday last that a theft had been committed in his sister's residence at No. 12th Lane, of property consisting of gold and pearl ornaments, &c., of the collective value of Rs. 1,460. The property alleged to have been stolen from an iron safe which could not be opened except by a person who knew the "four words" which opened the lock, and there appears to be no doubt that the theft was committed by some of the relatives of the complainant who live in the same premises.

SEIZURE OF SEALED PACKAGES CONTAINING COPIES OF THE KORAN.—On Tuesday evening last, as the outgoing mail-steamer arrived at Apollo bunder, Constable Hayter seized five sealed bags containing two hundred copies of the Koran. It appears one Shaik Adum Ebram, a packer in the sea branch of the Post-office, was concerned in attempting to get these books away. On the matter being at once brought to the notice of the Postmaster of Bombay he allowed the packer to proceed to sea, as he intends to deal with the man departmentally on his return to Bombay. The customs officer at the Apollo Bunder detained the books, as the owner was attempting to take them from Bombay without a pass from the Commissioner of Customs. The books were intended for sale at Suez.

A PRESENT TO H. H. THE NIZAM.—To-day being the commencement of the *Eed* festival, as is customary all the city nobles, &c., will present their *nuzars* to His Highness the Nizam. We hear that a magnificent sword and belt are to be presented to His Highness by the Nawab Shumsh-ool-Oomra, Ameer-i-Kabeer, the co-Regent. The sword and belt are said to have belonged to the late Sultan of Turkey, Abdul Aziz, and are valued at two-and-a-half lakhs of rupees. The handle and scabbard of the sword are covered with diamonds, several hundreds in number, and with those on the belt aggregating in weight two thousand five hundred carats. There are two splendid ones on the handle of the sword, one weighing 110 carats and the other 85. The belt is of gold, studded with diamonds, especially at the clasp. Altogether, a more costly sword and belt was never, perhaps, seen.—*Deccan Times.*

DEATH OF COLONEL DALRYMPLE HAY.—We have with deep regret to announce the death of Colonel George James Dalrymple Hay, Bengal Staff Corps, at his residence, No. 63, Civil Lines, Poona, on the night of the 29th instant, near midnight, aged 49. The deceased entered the service on the 20th March 1847, promoted Lieutenant 4th November 1852, Captain 21st November 1858, Major 20th March 1867, Lieutenant-Colonel 20th March 1873, and Colonel 20th March 1880. He had no war service. Colonel Hay came to this side of India as Officiating Controller, Military Accounts, during the absence on leave of Colonel D. B. Young, and it was at a pic-nic in the Dapoorie Gardens in the early part of the year that the deceased fell ill, and he never rallied. During his short stay here he had made himself a name for kindness and generosity with those over whom he held sway, and there are many in the community, old and young, who will feel his loss. The funeral took place at 5 o'clock on Tuesday evening, and was numerously attended by all the Finance employés. The 15th East Yorkshire Regiment, 2nd Battalion, formed the firing party, and nearly all the leading officers of the station attended, including His Excellency the Governor, Sir James Fergusson, and General Sir John Ross, K. C. B., Commanding the Division.—*Deccan Herald.*

THE LATE RESIDENT AT CUTCH AND NEW RESIDENT AT KOLHAPORE.—We find the Government of Sir James Fergusson has made a significant change in the affairs of Cutch. Major Reeves, the Political Agent and the autocratic President of the Council of Regency, whose memory in the annals of Cutch will for ever be connected with the overthrow of a popular constitutional Government, established very much in compliance with the wishes of the late Rao, is transferred to Kolhapore, in succession to Col. Parr, who retires from service next month. Major Reeves is succeeded in Cutch by Major Goodfellow of the Mahi Kantha Agency. The latter knows Cutch well enough, and is favourably known there, having served in the province a few years back, during the viceroyalty of Lord Mayo. He is regarded as a type of an English gentleman and a political officer, his known tendency being more towards cementing the good feeling between the native Prince at whose Court he is accredited and the British Government than of rendering the relations between the two unpleasant. The change at Cutch, though long and loudly called for, appears to have been quietly made by Sir James Fergusson on the first occasion arising for it. The merit of it is that it appears to have pleased the Cutchees and Major Reeves. Major Reeves must naturally look upon the transfer as a promotion and a compliment, while the feeling in Cutch, so far as we have been able to ascertain it, is one of considerable relief, very much akin to that felt by one by the removal of a millstone round one's neck. The great mass of the peasantry in Cutch will now breathe more freely. Whether Sir James Fergusson is aware of it or not we cannot say, but it is a fact well-known in the native community here that scarcely two months have passed since the ryots of Cutch, about 20,000 in number, were on the point of leaving their country in consequence, it is alleged, of certain injudicious measures adopted by the Political Agent, and it was not until after the strong persuasion used by the young Rao himself that they consented to remain in their native land.—*Indu Prakash.*

that is possible for such a force to do, in the endeavour to meet the new demands made upon them. —*Indian Daily News.*

MADRAS.

INSUBORDINATION OF CENSUS CLERK.—Six clerks or tabulators being found heading an opposition against the rules of the office, and instigating a resignation of the whole staff of Canarese and Malayalum tabulators, have been declared ineligible to Government service for five years.

APPLICATION FOR ADMITTANCE INTO THE GOVERNMENT WORKHOUSE.—This day, before Mr. W. M. Scharlieb, Town Presidency Magistrate, a European named James Anderson applied to be admitted into the Government Workhouse. The applicant said that he was born in Kurrachee in 1851, and that his father was a gunner in the Horse Artillery. His parents were married in England. He was educated in the Byculla School, Bombay. He joined the Bombay, Baroda and Central India Railway in 1864, as an apprentice fitter. He left the Railway in 1880, and joined the Government works at Bombay, as a fitter, leaving in 1872. He was afterwards employed as a fitter and driver in the Scinde, Punjab and Indus Valley Railway, as well as in the South Indian Railway. Since 1880 he had been out of employment. He came to Madras on the 22nd instant in hopes of getting something to do. He had no relatives or friends in India, and therefore prayed the Court to order his admission into the workhouse. His Worship granted the application.—*Madras Mail.*

N.-W. PROVINCES, PUNJAB, AND OUDH.

HEAVY RAIN AT LAHORE.—The heavy rain that fell on Wednesday last was generally looked upon as a blessing by the people in the city, who pray for its continuance to drive away cholera; but we regret to say that many old houses in the city, inhabited in many cases by the poorer classes, and which had been for a long while in a shaky condition, have fallen. It is reported that three lives were lost. The foundations of several houses have also been damaged to a great extent by the bursting of the water pipes in different directions in the city, and no sooner are they repaired in one place than others are found to demand the attention of the contractors.—*Civil and Military Gazette.*

CHOLERA AT LAHORE.—Our readers will, we feel sure, be glad to hear that, so far as we are able to ascertain, the cholera epidemic is generally considered by the natives of the city to be disappearing, and they have in a great measure recovered from the state of panic from which they had been suffering for some little time past. This is, we need hardly say, a matter for congratulation, for we know of several instances—and there must have been scores—in which, when one member of a household was attaked other inmates of the house made up their minds that they would catch the disease, and did actually do so. In all epidemics a dread of the disease would seem in some unaccountable way to induce the malady. There have been no cases of cholera among the servants at the Punjaub Club since Tuesday last, and it is hoped, with the precautions that have been taken, that it will not make its re-appearance.—*Civil and Military Gazette.*

PUBLIC WORKS AND PRIVATE ENTERPRISE.

THE following papers relating to the Central Bengal Railway, from Calcutta to Bongong, and from Ranaghat to Jessore and Khoolna, are published in the *Gazette of India* :—

Extract from the proceedings of the Governor General in Council in the Public Works Department,—Nos. 660—84R.C., dated Simla, the 20th August 1881.

Read the following papers :—

No. 170R., dated 16th November 1880.

From the Government of India to the Secretary of State for India.

We have the honour to acknowledge the receipt of your Lordship's telegram of the 11th instant, together with our reply (given below*). As soon as the members of Government re-assemble in Calcutta, the proposal that has been made to your Lordship by the Messrs. Rothschild will be taken into consideration. In the meanwhile it is most desirable that we should not be committed by the acceptance of any offers, even of the favourable character alluded to by your Lordship, to the construction of railways in Central Bengal. We must specially ask your Lordship to avoid making any concession in regard to free grants of land that might entail on us the expense of providing ground for a new station with approaches in the city of Calcutta. The papers relating to these lines are attached, together with a map. The cost of land for a railway leading from Dum-Dum for Chitpore to Jessore and Khoolna, with a branch from Bongong to Ranaghat to join the Eastern Bengal Railway, is estimated at five lakhs of rupees.

* From Secretary, London, to President, Simla.

"My telegram, 21st June, and Railway despatch 182 of 1879, Central Bengal Section—Calcutta-Jessore-Khoolna. Bearing has communicated with Rothschild, who will make line without guarantee on free grant of land. I think offer so important that I desire full information as to surveys and estimates. Send these at once, and also estimate of value of land. Inform by telegraph when I may expect information."

From President, Simla, to Secretary, London.

"Telegram eleventh. Central Bengal Railway papers go next mail. Question complicated by Eastern Bengal Railway. Committee appointed last August assembles next month to advise on question. Best avoid report, which will be submitted with least possible delay, before giving pledges."

Report of a Committee appointed by Government of India to consider the bearing the proposed Central Bengal Railway would have upon the Eastern Bengal Railway.

Before submitting the scheme for the Central Bengal Railway to Her Majesty's Secretary of State, the Government of India appointed a Committee to consider and report on the bearing the proposed system had on the Eastern Bengal Railway, and what should be done when by the terms of its contract the Government becomes empowered to take over the latter line.

This consideration is of vital importance to the Central Bengal Railway which requires the use of the two terminal stations of the Eastern Bengal Railway at Sealdah and Chitpore, and of the lines leading to these termini from the Chitpore Junction.

This consideration has become of still greater importance now that the Secretary of State proposes to hand over a portion of the Central Bengal Railway for construction by a Company to be formed under the auspices of Messrs. Rothschild, the consideration of which proposal has also been referred to the Committee.

The Eastern Bengal Railway is not only intimately mixed up with the working of the Central Bengal Railway, it is also connected with the Northern Bengal Railway and with the proposed Railway, from Dacca to Aircha and Mymensing; it forms, indeed, the trunk line, of which all these are branches; and now that the Secretary of State has sanctioned the construction of the Hooghly Bridge and connecting lines between Hooghly and Nyehattee, the East Indian Railway will also require running powers over the portion of the Eastern Bengal Railway from Nyehattee to Chitpore and Sealdah, and the use of the terminal stations at these places.

The working of the Eastern Bengal Railway is thus so inextricably connected with numerous and important interests that in order to avoid all unnecessary complications, the Committee is decidedly of opinion that the Government should exercise its right under the contract, and take over this railway as soon as it can do so.

Should the Government accept this conclusion, we are of opinion that there would be no objection to the concession to Messrs. Rothschild of the construction of the part of the Central Bengal Railway from Chitpore Junction to Jessore and Khoolna, with a branch to Ranaghat, on the same gauge as the Eastern Bengal Railway, and to the grant of the land required free of cost on the following terms :—

1st.—That the Government should be empowered to fix a scale of maxima fares and rates, and to insist on a certain minimum train service, such scale of fares and minimum service to be subject to revisions on the net profits on the share capital exceeding 10 per cent.

2nd.—That Messrs. Rothschild should concede similar conditions in regard to the transport of mails, troops and Government stores to those prevailing on the East Indian Railway.

3rd.—That Messrs. Rothschild should agree to surrender the land, with the railway, and all stations, buildings, &c., erected on it, together with the equipment, in good working order, at the end of 99 years.

4th.—That Messrs. Rothschild should agree to give up the property, together with all the assets of the undertaking, to the Government if called on to do so, at the end of 99 years from date of contract, and afterwards at successive intervals of 10 years, on a year's notice, and on payment by Government of a sum per share (besides the debts due by the undertaking) equal to the mean average [illegible] of shares in the three years preceding that [illegible]ich the notice is given, together with a bonus [illegible]cent. on each share.

5th.—That Messrs. Rothschild agree to share [illegible] the Government the net profits earned [illegible]dar year in excess of 8 per cent. on

[illegible]thschild bind themselves, [illegible]plete the line and open it [illegible]d for the train service [illegible]e years from date [illegible] the line and [illegible] thoroughly [illegible] the line [illegible]overn-

Railway Company power to run trains from the junction at Nyehattee with the new bridge line to Sealdah and Chitpore, and to use the terminal stations of Sealdah and Chitpore on payment of a toll of 8 annas per train mile, and terminal expenses proportionate to work, the East Indian Railway retaining all through fares.

4th.—An undertaking to construct whatever additions to the lines, stations or buildings south of Nyehattee, and at Sealdah and Chitpore, that may be required by the East Indian Railway Company for the convenience and accommodation of its traffic, on condition that the East Indian Railway Company pays interest on the cost of any works exclusively required for its use, and a proportionate interest on any works required for joint use.

5th.—An undertaking to keep the lines and equipment taken on lease in thorough order, and to surrender them without charge or claim for any compensation whenever the Government may acquire their other property; the Government also to have power of entry to enforce repairs during the continuance of the lease, recovering the cost of any such repairs from the lessees.

6. As regards the third and fourth recommendations, we thiuk that the right of purchase which must be reserved to Government should be after, say, 30 years, but the term will probably be a subject of negotiation between your Lordship and Messrs. Rothschild.

7. The fifth recommendation of the Committee must also be the subject of negotiation. Messrs. Rothschild may possibly wish to preserve the right of paying to the Government the sum advanced for land with compound interest thereon, in which case they might obviously claim on behalf of the Company to reserve all the profits.

8. The sixth and seventh recommendations will probably not raise any difficulties, although the term of three years, after which the Committee propose the line should be open for traffic will, without doubt, be the subject of negotiation.

9. The points, however, to which we attach the greatest importance are—(1) that it should be made quite clear that under no circumstances can the Government become responsible to the shareholders for the payment of interest on their capital; and (2) that the maximum expenditure which will be incurred by Government on account of the purchase of land is Rs. 5,00,000. We do not doubt that in making the contract these points will be carefully borne in mind.

10. As regards the proposals made by the Committee in respect to the Eastern Bengal Railway, we think that it would on all grounds be more convenient as well as more lucrative to the Company that the Eastern and Central Bengal systems should be in the same hands. On the other hand, we agree with your Lordship that the joint administration of the two lines is not so important as the promotion of a successful experiment of private railway construction. The possibility of at once entering into arrangements whereby the two systems may be amalgamated will, without doubt, receive due consideration from your Lordship. In any case the possibility of effecting such an arrangement can be considered when the lease of the Eastern Bengal Railway expires in 1884, that is to say, before the new line will be completed. We are very desirous that the experiment now apparently about to be tried should prove successful, and we are, therefore, of opinion that the complications which may arise, unless the two systems are in the same hands, should be pointed out to Messrs. Rothschild before the contract is signed. We conceive, specially, that the new Company will be put to considerable inconvenience and expense, unless they can arrange to use the Sealdah terminus of the Eastern Bengal Railway in Calcutta. In these arrangements the East Indian Railway Company will have to be consulted, as the bridge at Hooghly sanctioned by your Lordship is to be built on the faith of and understanding that that Company will be allowed to use on equitable terms the line of the Eastern Bengal Railway southwards from Nyehattee station and the Sealdah station.

11. Your Lordship will observe that the Committee recommend that the new line should be on the same gauge as that of the Eastern Bengal Railway. We trust that the Company will be willing to accept this condition.

12. We have only to add that we shall be willing to assist the Company by lending engineer officers, &c., should they wish us to do so.

Dated 3rd March 1881.

Telegram from Secretary of State, London, to Viceroy, Calcutta.

Central Bengal Railway. Terms of contract between Government and Company decided on, and arrangement likely to be very shortly concluded. Main conditions of contract can be telegraphed if you desire it.

Dated 7th March 1881.

Telegram from Viceroy, Calcutta, to Secretary of State, London.

Wire principal conditions Company's Contract, Central Bengal System.

Dated 8th March 1881.

Telegram from Secretary of State, London, to Viceroy, Calcutta.

Yours seventh. Capital one million. Primary undertaking, Calcutta to Jessore and Khoolna. Preferential right to construct new lines within system, term 99 years. Gauge broad. Interest 4 per cent. advanced by Government bill. Opening on June 1886. To be repaid with interest at 4 per cent. from half earnings over 5 per cent. Land approved by Government granted free. Government can purchase thirty or fifty years at 125 for 100 stock end of term works. Property of Government, moveable stock, purchased at valuation maximum rates.

Dated 9th March 1881.

Telegram from Viceroy, Calcutta, to Secretary of State, London.

Jessore-Khoolna Railway. General conditions satisfactory. Shall we acquire necessary land? Do Company wish earthwork done on their behalf or want loan engineers? Where is bifurcation from Eastern Bengal.

No. 52 R., dated 31st March 1881.

From the Secretary of State for India, to the Government of India.

With reference to your letter in this Department, No. 170 of 16th November last, and to the telegraphic correspondence quoted below,* I transmit herewith, for your Excellency's information, a copy of a correspondence† which has taken place between this office and the promoters of the Bengal Central Railway, which will place you in possession of the conditions on which I have authorised the establishment of railway communication between Calcutta and Jessore and Khoolna by the construction of a line from the Eastern Bengal Railway, near Dum-Dum, to Baraset and Bongong, and a branch from Ranaghat to the latter place.

M. W. WILLOUGHBY, Colonel,
Secretary to Government, Military Department, Bombay.
Bombay, 24th August, 1881.

SPARKLING HIPPOCRENE.

The true, the blushful Hippocrene.
KEATS.

THIS unique beverage—the latest result of the application of the principles of modern science to the laws of health,—combines the VERVE OF HERBING and EXHILARATING PROPERTIES OF IRON and PHOSPHORUS with the most DELICATE AND AGREEABLE FLAVOR, and stands without an equal as the most exquisite Non-Alcoholic drink extant.

The greatest care has been taken to exhibit the tonic and strengthening elements in HIPPOCRENE in Nature's own MANNER and NATURE'S OWN PROPORTIONS, so as to admit of its being taken in large or small quantities, by persons of all ages and both sexes, sustaining the robust, strengthening the delicate and maintaining the powers of both body and mind in the highest state of efficiency—to this fact is attributable the marked success which HIPPOCRENE has attained wherever it has had a trial.

It has received the special approval of the Medical Faculty.

We recommend for GENERAL CONSUMPTION the DRY quality of HIPPOCRENE, which for appearance, flavour, and exhilarating qualities can be safely placed in competition with high-class Champagne.

Price per dozen in Champagne Reputed Pints, Rs. 4-8.

Sole Consignees for India :—

NOTICE TO MARINERS.
(No. 29.)
CEYLON—EAST COAST.
REPORTED REEF OFF BATTICALOA.

THE Master Attendant, Colombo, has issued the following Notice to Mariners :—

"Notice is hereby given that the S. S. 'BRENNUS,' drawing 22 feet of water, struck on what is supposed to be a coral reef off Batticaloa (East Coast, Ceylon), and had to be beached to save her from sinking. The reef is about 4 miles off shore and bears from Batticaloa Flag Staff about N. E. by E. ½ E.; and Mariners are hereby cautioned to give a wide berth to the locality."

NOTE.—It is very probable that this reef is not so far off shore as reported.

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr. (late I. N.),
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, Calcutta, 15th Aug., 1881.

This Notice affects the following :—

BRITISH ADMIRALTY Charts, Nos. 2031, 828, 70, & 748b.
INDIAN MARINE SURVEY Charts, Nos. 156 and 103c.
Also Taylor's Sailing Directory, Vol. I, page 442.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

By Order of His Excellency the Right Honorable the Governor in Council.

M. W. WILLOUGHBY, Colonel,
Secretary to Government of Bombay, Marine Department.

THE SUFFERER'S FRIEND :
HENRY'S "THILUM"
FOR EXTERNAL APPLICATION,

A SPECIFIC for Rheumatism, Lumbago, Gout, Sciatica, Stiffneck, Sore Throat, Numbness, Swellings, Weakness or Pains and Contraction of, the Joints, Pains in the Back, Bruises, Cramps, Nervous Headache, Hemicrania (one side headache), Brow-Ague, Neuralgia, Pains and Stiffness consequent on shooting, riding, or violent exercise, Pains in the Back and Limbs produced by Dengue and other Fevers, and all Muscular Pains. Also for Mumps, Paralysis, and Asthma, Coughs, Colds, Bronchitis, Difficulty of Breathing and Pain or Weight on the Chest, Corns, Boils, Eruptions, Chancres, Piles, Ringworm, &c., &c.

"THILUM" is a wonderful preventive of musquito or other noxious insects.

Price, Re. 1-4-0. Packing 4 annas. Postage, 4 annas.

N. B.—Postage and packing for 3 pots, the same as for a single pot.

☞ Special rates to missionaries, charitable hospitals and institutions on application *only* to F. H. BOWDEN, HENRY'S "THILUM" WORKS, Madras.

N.B.—Henry's "Thilum" does not contain a particle of Opium or Mercury in any form, nor indeed any deleterious ingredient. It may safely be used for infants and on the most delicate or broken skin.

TESTIMONIALS.

RHEUMATISM, &c.—"HENRY'S THILUM" has been used in my own family, and its use recommended by me to others. As an emollient, anodyne and detergent application, it is one of SURPASSING VIRTUE. In Rheumatic affections its efficacy, when well rubbed in, cannot be questioned, while its fragrance effectually meets one of the greatest objections to unguents in general.

W. J. VAN SOMEREN, M. D.,
Surgeon General (Madras Retired.)

Burmore, Bridge of Allan, 23rd June, 1881.

RINGWORM.—For the last twelve months I had been suffering from Ringworm about my neck, which did not yield to any of the various remedies I used. Having got a pot of "HENRY'S THILUM" from you, I made no hesitation in trying it. Six or seven applications of the ointment in two days completely cured me of the disease. I am much delighted to communicate to you this result of my trial of your "THILUM" with a view to your recommending it as a SPECIFIC FOR RINGWORM.

MAHOMED ISMAIL HAJEE ZENAL ABDIN.

Bombay, 26th May, 1881.
